Frutto di diverse culture, caratterizzati da esperienza e costante impegno nella ricerca di originalità, il nostro impegno è rivolto al benessere nel bagno.

Aus dem Nährboden verschiedener Kulturen entstanden, durch Erfahrung und dem ständigen Streben nach Besonderem geprägt, richten sich unsere Gedanken und Ideen auf das Wohlbefinden im Bad.

From the fertile soil of different cultures, through experience and constant striving for special features we have developed our thoughts and ideas in order to promote a feeling of well being in the bath.

STORIA
GESCHICHTE
STORY

TO RY

Provex è punto d'incontro tra estetica e tecnologia. Prodotti eleganti e di elevata qualità, riconosciuti e apprezzati in Italia e nel mondo come raffinati oggetti d'arredo, esempi concreti del "Made in Italy".

ITALIAN DESIGN

Provex ist die Symbiose zwischen herausragender Formsprache und Technologie. Elegante und qualitativ hochwertige Produkte - anerkannt und geschätzt in und außerhalb Italiens als stilvolle Einrichtungsgegenstände und konkretes Beispiel für das "Made in Italy".

Provex is a meeting point for contemporary looks and modern design principles. Elegant products of enduring quality recognised and admired in Italy and throughout the world as stylish bathroom furnishings, true examples of the "Made in Italy".

GN

CUSTOMER CARE

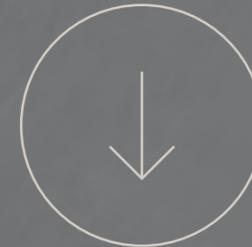

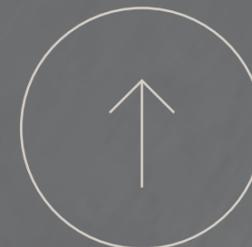

I nostri prodotti garantiscono standard qualitativi superiori, massima attenzione alla funzionalità, ed estetica di pregio. Accanto a questi fattori diamo valore al servizio, sia prima che dopo l'acquisto del nostro prodotto, mettendo a disposizione dei nostri clienti persone competenti e pronte a risolvere qualsiasi esigenza.

.....

Unsere Produkte stehen für einwandfreie qualitätsvolle Verarbeitung, präzise Funktion und ästhetische Hochwertigkeit. Neben diesen Faktoren legen wir Wert auf den Service vor und nach dem Kauf unseres Produktes. Kompetente und motivierte Mitarbeiter im Innen- und Außendienst stehen Ihnen dabei zur Verfügung.

.....

Our products represent high quality, precise function and are aesthetically pleasing. In addition to these factors we attach importance to the service before and after the purchase of our product. Competent and motivated employees in the internal office and sales representatives are available to you.

KNOW HOW

La continua ricerca di nuove tecnologie e l'attento esame dei processi già esistenti stanno alla base del nostro sviluppo. Il confronto con il mercato diventa ogni giorno spunto costruttivo per perfezionarci ed essere in grado di seguire la giusta direzione.

.....

Die stetige Suche nach neuen Technologien und die aufmerksame Prüfung aller Abläufe sind die Basis unserer Entwicklungen. Der Vergleich mit dem Markt wird zum täglichen Ansporn uns zu perfektionieren und dient als Bestätigung dem richtigen Weg zu folgen.

.....

The continuous search of new technologies and the careful examination of the existing processes are the base of our development. The comparison with the market becomes every day constructive cue in order to perfect us and to be in a position to following the right direction.

COMFORT

AND QUALITY

Produciamo oggetti di grande qualità e consideriamo nostro dovere testarli sulla sicurezza, la durata e l'aspetto tecnico-funzionale. Facciamo quindi molte prove di laboratorio in collaborazione con istituti di certificazione per garantirvi qualità e sicurezza attestate.

Als Produzent hochwertiger Produkte erachten wir es als unsere Pflicht, Ihnen Produkte anzubieten, die unter dem Aspekt der Sicherheit, Technik, Funktionalität und Langlebigkeit entwickelt wurden. Umfangreiche Tests und die Zusammenarbeit mit Prüfzentren garantieren unseren Kunden Qualität, Komfort und Sicherheit.

We take pride in producing high quality, technical and functional products, so that you can get many years satisfaction from our products. We strive to guarantee consistently high standards by working closely with all relevant testing and certification institutes and by following our own strict quality and safety criteria.

L'innovazione nasce dall'ambizione e dalla curiosità di sviluppare quotidianamente nuove idee. La formazione professionale individuale e la volontà di crescere insieme contribuiscono all'affermazione del nostro ruolo di precursori nel settore.

CURIOUSITY

Die Innovation entsteht durch den Ansporn und die Motivation ständig neue Ideen zu entwickeln. Die persönliche berufliche Entwicklung und der Wille gemeinsam zu wachsen, tragen zum Erfolg unserer Rolle als Vorreiter im Sektor bei.

.....

The innovation is born from the ambition and the curiosity to develop new ideas every day. The individual professional formation and the common intention to grow, contribute to the affirmation of our role of premonitory in the field.

... INSTALLAZIONE SENZA SILICONE: IGIENICA, DURATURA ED ESTETICA

SILICON FREE

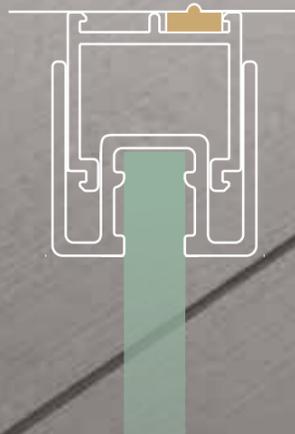

I nostri box doccia possono essere installati senza silicone grazie ad una guarnizione in pvc resistente all'acqua e ai raggi UV che viene fissata sul profilo verticale interno al muro. Eliminando il silicone, terreno fertile per muffe, germi e batteri, garantiamo così la massima igiene e pulizia.

SILICON FREE

Unsere Duschkabinen können am vertikalen Wandprofil durch eine Wasser- und UV-beständige PVC Dichtgummi ohne Silikon montiert werden. Durch das Weglassen von Silikon, Nährboden für Schimmel, Keime und Bakterien garantieren wir ein Höchstmaß an Hygiene und Reinigung.

SILICON FREE

Our shower enclosures can be mounted on their vertical wall profiles using a water and UV resistant PVC seal without silicone. Through the omission of silicone there is no breeding ground for mold, germs and bacteria, we are therefore able to guarantee maximum hygiene and cleaning.

... ED UN SISTEMA DI MONTAGGIO SEMPLICE E VELOCE.

SISTEMA SMS

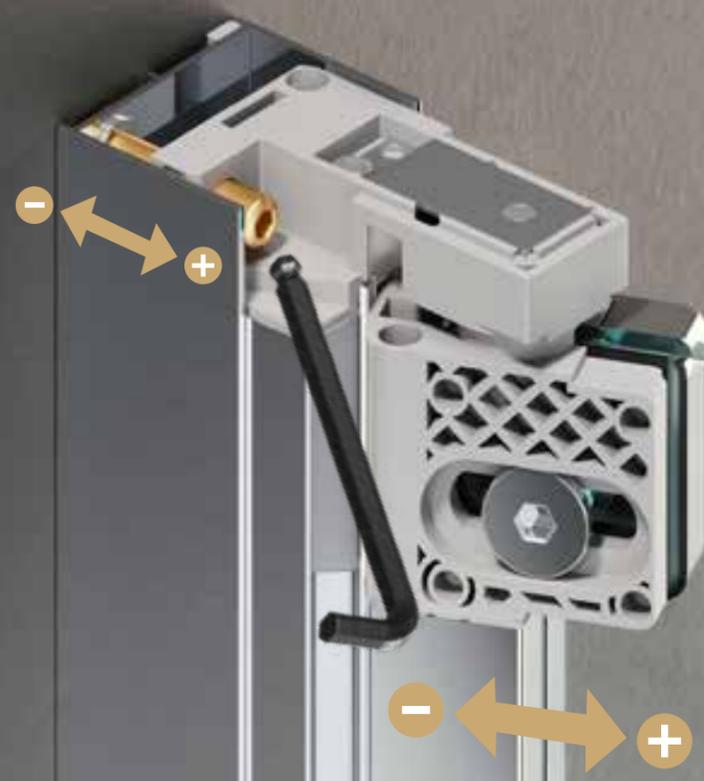

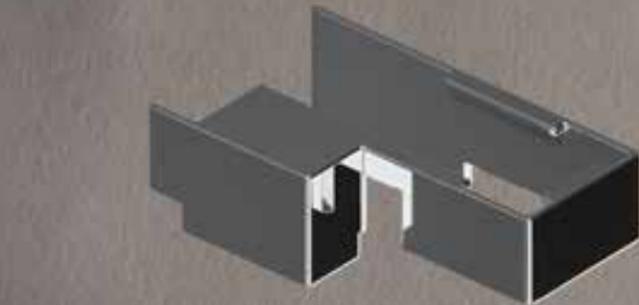

- SMS sta per montaggio semplice e veloce
- Profilo a parete senza bisogno di silicone
- Posizionamento con vite d'aggiustamento
- Sostegni dei laterali regolabili in lunghezza
- Aiuti di montaggio facilitano l'installazione
- I componenti e le cerniere sono premontati
- Istruzione di montaggio con lista problemi/soluzioni

SMS SYSTEM

- SMS steht für eine einfache und schnelle Montage
- Silikonfreier Wandanschluss
- Positionierung durch die Verstellerschraube
- Seitenteilstützen sind längenregulierbar
- Montagehilfen erleichtern den Aufbau
- Komponenten und Scharniere sind vormontiert
- Montageanleitungen mit Problemlösungslisten

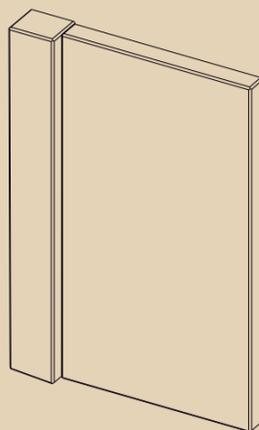

SMS SYSTEM

- SMS stands for a simple and fast assembly
- Silicone free wall junction
- Positioning using the adjusting bolt
- Side part supports are length adjustable
- Assembly aids facilitate construction
- Components and hinges are pre-mounted
- Assembly instructions include problem solving lists

SHOWER PRODUCT RANGE

Provex vi offre da sempre una grande varietà di modelli e di configurazioni declinate per ogni collezione. Per facilitarvi nella lettura di tutte le possibili configurazioni trovate qui di seguito un semplice prospetto dove abbiamo raggruppato le nostre abilità costruttive in 4 gruppi: **W**, **C**, **P** e **S**. Il posizionamento dei prezzi sono discendenti (p. e.: C 800 è più costoso di C 700 o C 600).

Aufgrund der großen Modellvielfalt möchten wir Ihnen die Suche nach den passenden Modellen und Einbausituationen mit entsprechenden Preisklassen erleichtern. Dafür haben wir 4 Anwendungsgruppen erarbeitet (**W**, **C**, **P** und **S**), die sich auf die Funktion der jeweiligen Modelle inklusiv der Preispositionierung beziehen (Beispiel: C 800 ist teurer als C 700 oder C 600).

Due to the large variety of models, we would like to make it easier for you to find the suitable models and installation situations with corresponding prices. For this purpose, we have developed 4 application groups (**W**, **C**, **P** and **S**), which refer to the function of the respective models including the price positioning (example: C 800 is more expensive than C 700 or C 600).

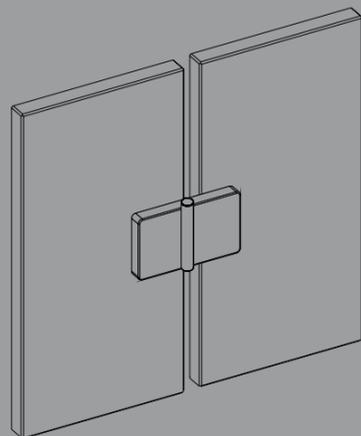

Dankzij de grote verscheidenheid aan modellen helpen wij u graag bij het vinden van de juiste uitvoering en inbouwsituatie, in relatie tot de bijbehorende prijsklassen. Hiervoor hebben we 4 toepassingsgroepen ontwikkeld (**W**, **C**, **P** en **S**) die zich richten op de functie van de verschillende modellen, in relatie tot het prijssegment (voorbeeld: C 800 is duurder dan C 700 of C 600).

В связи с большим разнообразием моделей, мы бы хотели облегчить вам поиск подходящих изделий и вариантов их установки с помощью введения специальных ценовых классов. Для этого мы разделили весь ассортимент на 4 группы (**W**, **C**, **P** и **S**), которые характеризуют функционал входящих в него моделей, а также отражают варианты ценового позиционирования (например: C 800 дороже, чем C 700 или C 600).

En raison de la grande variété de modèles, nous aimerions vous faciliter la tâche pour trouver les modèles et les situations d'installation appropriés avec les prix correspondants. À cette fin, nous avons développé 4 groupes d'application (**W**, **C**, **P** et **S**), qui se réfèrent à la fonction des modèles respectifs, y compris le positionnement du prix (exemple : C 800 est plus cher que C 700 ou C 600).

IT

- Sistema modulare per docce di ampie misure
- Montaggio a filo pavimento o su piatto doccia
- Con profilo per la compensazione del pavimento fuori livello
- Altezza 1950/2000 mm, vetro di sicurezza 8 mm ed estensibilità fino a 50 mm
- Tenuta stagna testata a 11 litri/minuto
- Profilo a parete senza ausilio di silicone
- Profilo murale a scomparsa
- Con attaccapanni

DE

- Modulares System für Großraumduschen
- Montage bodenbündig oder auf Duschtasse möglich
- Bodenprofil zum Ausgleich von Unebenheiten
- Kabinenhöhe 1950/2000 mm, 8 mm ESG Sicherheitsglas und Verstellbereich bis 50 mm
- Getestete Wasserdichtheit 11 Liter/Minute
- Schattenprofil an der Wandbefestigung
- Silikonfreier Wandanschluss
- Mit Kleiderhaken ausgestattet

ENG

- Modular system for extra-large shower areas
- Assembly is possible on a shower tray or flush to the floor
- With floor profile to compensate for unevenness
- Enclosures height of 1950/2000 mm, 8 mm safety glass with adjustability up to 50 mm
- Tested to be watertight 11 litres per minute
- Silicone free wall junction
- Shadow profile on the wall side
- With coat hook

ES

- Sistema modular para las duchas de medidas grandes
- El perfil permite ajustar las desigualdades
- Permite instalarla al suelo o sobre el plato de ducha
- Altura 1950/2000 mm, 8 mm vidrio y extensibilidad hasta 50 mm
- No sale el agua al exterior hasta 11 litros/minutos
- Fijación a pared sin necesidad de silicona
- Perfil mural oculto
- Con percha

RU

- Модульная система для огромных душевых
- Монтаж возможен в уровень с полом или на душевой поддон
- Напольный профиль для компенсации неровностей
- Высота кабины 1950/2000 мм, толщина закаленного стекла 8 мм, диапазон регулировки до 50 мм
- Испытанная герметичность 11 л/мин
- Теневой профиль со стороны стены и с крючком для одежды
- Настенный профиль не требует нанесения силиконового герметика

NL

- Modulair systeem voor grote doucheruimtes
- Design Studio Talocci
- Geschikt voor montage op vloer of douchebak
- Hoogte 1950/2000 mm, verstelbereik tot 50 mm en 8 mm veiligheidsglas
- Geteste waterdichtheid tot 11 liter/minuut
- Siliconenvrije muuraansluiting
- Met kledinghaak en schaduwprofiel aan muurzijde
- Onderprofiel voor compensatie oneffenheden

FR

- Système modulable pour grandes surfaces
- Design Studio Talocci
- Assemblage plain pied ou sur le bac à douche possible
- Hauteur de cabine 1950/2000 mm, zone de Réglage jusqu'à 50 mm et verre de 8 mm
- Étanchéité testée de 11 litres/minute
- Profil mural sans silicone
- Porte-serviette et profil mural d'ombre
- Profil sol pour compenser les inégalités

IT

- Design Studio Provex e Talocci
- Massima trasparenza con il sistema a cerniera incassata
- Pulizia ideale grazie al design completamente liscio (cerniere, profili e maniglia)
- Altezza 1950 mm e spessore vetro di sicurezza 8 mm
- Regolazione graduale fino a 35 mm
- Tenuta stagna testata fino a 11 litri/minuto
- Montaggio facile con diverse guide di installazione
- Profilo a parete senza silicone e a scomparsa

DE

- Design Studio Provex und Talocci
- Maximale Transparenz durch die eingesetzte Scharniertechnik
- Ideale Reinigungseigenschaft durch flächenbündiges Design (Scharnier, Profil und Griff)
- Kabinenhöhe 1950 mm mit 8 mm ESG Sicherheitsglas
- Stufenloser Verstellbereich bis 35 mm
- Getestete Wasserdichtheit von 11 Liter/Minute
- Einfachste Montage durch verschiedene Installationshilfen
- Silikonfreier Wandanschluß und Schattenprofil

ENG

- Design Studio Provex and Talocci
- Maximum transparency through the assigned hinge technology
- Ideal to clean due to the completely flat design (hinges, profiles and handle)
- Height 1950 mm with 8 mm safety glass
- Smooth adjustment up to 35 mm
- Tested to be watertight up to 11 l/minute
- Simplest assembly through various installation aids
- Silicone free wall junction and shadow profile

ES

- Design Studio Provex y Talocci
- Transparencia máxima por la tecnología de la bisagra encastrada
- Limpieza ideal por el diseño totalmente plano (bisagras, perfiles y maneta)
- Altura 1950 mm y vidrio de 8 mm de espesor
- Extensibilidad plana hasta 35 mm
- No sale el agua al exterior hasta 11 l/minuto
- Montaje más simple con ayuda de instalación completa
- Fijación a pared sin necesidad de silicona y perfil mural oculto

RU

- Итальянский дизайн студии Provex и Talocci
- Максимальная прозрачность благодаря технологии петель
- Возможность идеальной очистки благодаря гладкому дизайну (петля, профиль, ручка)
- Высота кабины 1950 мм и толщина закаленного стекла 8 мм
- Диапазон бесступенчатой регулировки до 35 мм
- Испытанная герметичность 11 л/мин
- Простая сборка благодаря различным вспомогательным средствам установки
- Настенный и теневой профили не требуют нанесения силиконового герметика

NL

- Design Studio Provex en Talocci
- Maximale transparantie door toegepaste scharniertechniek
- Ideale reinigingseigenschappen door geheel vlak design (scharnier, profiel en greep)
- Cabinehoogte 1950 met 8 mm veiligheidsglas
- Traploos tot 35 mm verstelbaar en een geteste waterdichtheid tot 11 liter/minuut
- Eenvoudige montage door verschillende montagehulpen
- Siliconenvrije muuraansluiting

FR

- Design Studio Provex et Talocci
- Transparence maximale grâce à un système de charnière
- Nettoyage facile grâce au design à surface plane (charnières, profil et poignée)
- Hauteur de 1950 mm pour verre de sécurité trempé 8 mm
- Zone de réglage en continu jusqu'à 35 mm et étanchéité testée de 11 litres/minute
- L'assemblage simple grâce aux aides d'assemblage
- Profil mural sans silicone et profil d'ombre

IT

- Design Studio Provex
- Massima trasparenza con il sistema a cerniera
- Viti planari all'interno del box
- Altezza 1950/1975 mm e un'estensibilità da 25 – 35 mm
- Tenuta stagna testata a 11 litri/minuto e vetro di sicurezza 6 mm
- Profilo a parete senza bisogno di silicone e a scomparsa
- Porte con meccanismo di sollevamento/abbassamento

DE

- Design Studio Provex
- Maximale Transparenz durch die Scharniertechnik
- Scharnierschrauben sind im Glas versenkt
- Kabinenhöhe 1950/1975 mm und einen Verstellbereich von 25 – 35 mm
- Getestete Wasserdichtheit von 11 Liter/Minute und 6 mm ESG Sicherheitsglas
- Silikonfreier Wandanschluss und Schattenprofil
- Türelemente mit Hebe- Senkmechanismus

ENG

- Design Studio Provex
- Maximum transparency through hinge technology
- Hinge screws are sunk into the glass
- Enclosures height of 1950/1975 mm and adjustability from 25 - 35 mm
- Tested to be watertight 11 litres per minute and 6 mm safety glass
- Silicone free wall junction and shadow wall profile
- Door elements with up and down lifting mechanism

ES

- Design Studio Provex
- Máxima transparencia con el sistema de bisagra
- Tornillos planos en el interior de la cabina
- Altura 1950/1975 mm y una extensibilidad de 25 – 35 mm
- No sale el agua al exterior de 11 litros/minutos y vidrio de 6 mm de espeso
- Fijación a pared sin necesidad de silicona y perfil mural oculto
- Puertas con mecanismo de levantamiento/descenso

RU

- Итальянский дизайн студии Provex
- Максимальная прозрачность благодаря технологии петель
- Винты шарниров утоплены в стекло для удобства очистки
- Высота кабины 1950/1975 мм, диапазон регулировки кабин от 25 до 35 мм
- Испытанная герметичность 11 л/мин и толщина закаленного стекла 6 мм
- Настенный и теневой профили не требуют нанесения силиконового герметика
- Двери со скрытым подъемно-опускным механизмом

NL

- Design Studio Provex
- Maximale transparantie door toegepaste scharniertechniek
- Scharnierschroeven verzonken in glasplaat
- Hoogte 1950/1975 mm en verstelbereik van 25 - 35 mm
- Geteste waterdichtheid tot 11 liter/minuut en 6 mm veiligheidsglas
- Siliconenvrije muuraansluiting en schaduwprofiel
- Deurelementen met liftstelsysteem

FR

- Design Studio Provex
- Transparence maximale grâce à un système de charnière
- Les vis de la charnière sont montées dans le verre pour un nettoyage facile
- Hauteur de 1950/1975 mm et Réglage de 25 – 35 mm
- Étanchéité testée de 11 litres/minute et verre de sécurité trempé 6 mm
- Profil mural sans silicone et profil d'ombre
- Porte avec mécanisme de levage et d'abaissement

OUR COMMON

Wir sind ständig auf der Suche nach etwas Besonderem, um unseren Kunden zeitgemäße Lösungen anbieten zu können – die Zusammenarbeit soll ständig weiterentwickelt, verbessert und erfolgreich gestaltet werden. Wir schaffen Platz für neue, kreative und gemeinsame Lösungen - diese führen in einem offenen und aufrichtigem Wissens- und Erfahrungsaustausch zum gemeinsamen Erfolg.

Siamo costantemente alla ricerca di qualcosa di particolare, per offrire ai nostri clienti soluzioni al passo con i tempi, ma anche per migliorare, alleggerire e far evolvere le loro modalità di lavoro. Creiamo spazi per idee e soluzioni nuove e creative, e queste, all'interno di un contesto aperto e schietto dove tutti i soggetti partecipano ad un reciproco scambio di conoscenze, portano al successo comune.

We are constantly searching for something special, in order to offer our customers up to date solutions, but also in order to improve, to ease and to help evolve their working models. We create room for new and creative ideas and solutions in an open and frank context, where all parties participate in a mutual exchange, leading to a common success.

SUCCESS

A stylized logo consisting of a thick, black, wavy line that curves upwards and then downwards, resembling a stylized 'P' or a wave. Below this logo, the word "PROVEX" is written in a bold, black, sans-serif font.
